

Public Records Requests

California Public Records Act

The California Public Records Act provides individuals with the right to inspect and obtain copies of public records maintained by local agencies (California Government Code Section 6250 et. seq.)

The California Public Records Act was enacted to guarantee the access of information concerning the conduct of the people's business, a fundamental right of every person in this State, mindful of the right to privacy of persons who are the subject of Government records.

Public Records are documents containing information relating to conduct of the public's business prepared, owned, used, or retained by the City. Certain documents and records maintained by the City are exempt from public disclosure under the Act.

Access to Public Records

Routine records requests are ordinarily available for inspection during City business hours; within a short period of time, unless documents are archived and/or stored off-site or in numerous City departments.

If a request to inspect records includes numerous files and/or documents, or requires the coordination by more than one City Department, The City reserves the right to set a date and time when the records will be available for inspection.

The City of Palm Springs strives for excellent customer service and responds to Public Records requests as quickly as possible.

The Public Records Act allows a period of ten (10) days for the City to determine whether the request seeks disclosable records and to respond. The law also provides for an additional 14-day extension in the event of unusual circumstances.

Under the provisions of the Public Records Act, records requested require City staff's careful examination to ensure that the documents are complete and records are disclosable under the Act.
